DETAILED ACTION

1. This is response to the Applicant's Amendment filed on December 14, 2007. By this Amendment, claim 20-65 are cancelled. Claims 1-19 are pending in the Application and allowable as indicated in the Non-Final Office Action mailed on June 15, 2007.

Reason for Allowance

The present invention related to a keyboard with changeable keypad. The sole independent claim identifies the uniquely distinct features

“A keypad comprising:

a display apparatus having a display surface and a display perimeter surrounding the display surface; a sidewall positioned along at least a portion of the display perimeter, the sidewall extending above the display surface to a sidewall pivot line;

a key actuator having a short arm and a long arm, wherein the key actuator contacts the sidewall pivot line, thereby allowing the key actuator to rotate about the sidewall pivot line; and

a switch positioned adjacent the key actuator short arm, such that when a force is applied to move the key actuator long arm toward the display, the key actuator rotates about the sidewall pivot line and the key actuator short arm engages the switch. ”

The closest prior art of Amari et al. (U.S Patent No. 6,535,202) and Calvillo et al. (U.S Patent No. 5,340,955) show similar systems that discloses a keyboard with a changeable label information for the keypad, but either singularly or in combination, fail to anticipate or render above quoted limitations obvious.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
